

### Why this project?

- A skills audit is a process aimed at identifying and analyzing the knowledge, skills and competences of an individual : aptitudes and motivations in order to define a career project and /or plan a professional reorientation or training project; career background, self-assessment (validation of non-formal or informal learning outcomes. ) and plan for a career pathway.
- Nevertheless, as previous researches and projects evidence, the relationship between validation and skills audits is not always clear to stakeholders and the level of integration between validation and skills audits varies, depending on the type of audit.
- To be effective, skills audit process needs to be tailored to target groups.
- Some trends have more importance such as the use of digital tools (use of technology, for example, to develop open badges or online portfolios which are easily storable (i.e. online), can have a process of external validation as well).

**ASSESS Plus 2019 Partners will develop the following outcomes:**

- **IO.1: a European Framework of Competences in Skills Audits for Adult Education**
- **IO.2: A Virtual Campus**
- **IO.3: A Mobile Assessment App for Skills Audits**
- **IO.4: A set of Guidelines to promote transparency and recognition**

This project (2019-1-FR01-KA204-062263) has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

# Assess Plus 2019 Project Supporting skills audits in adult education

## Project aims

This project addresses all these issues since:

- **Skills Audits** in adult education through **innovative digital tools and products** to make available **skills identification and screening**, including the **validation of skills** acquired through informal and non-formal learning, and **facilitate the progress of low-skilled and disadvantaged adults** towards **higher qualifications**.
- To do so, **seven European adult education providers**, experts in skills assessment and validation and in digital solutions applied to training and employment from six countries, France, Spain, Austria, Ireland, Bulgaria and Greece, **will work together to co-create a set of innovative tools and digital solutions**.
