

SUPPORTING SKILLS AUDITS IN ADULT EDUCATION

NEWSLETTER 3 – PROJECT ASSESS PLUS

Some news about the Project (February 2021):

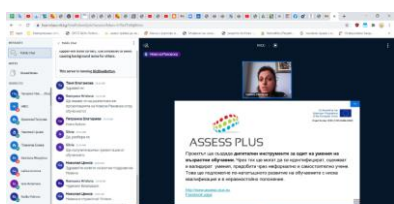

- People needs to be more and more imaginative regarding a situation that will last some more months. Face to face activities, are barely possible in our partners country. We are thinking about this challenge for the project.
- Hopefully in this context, we manage to maintain skype meetings among the partnership and as well our project timeline is quite the same as it was supposed to be. Thanks to a particularly good partnership commitment.

A project life dealing with Pandemic situation...

How our partner from Bulgaria deal with the situation? A good example.

Business Foundation for Education actively searched for the most relevant online options to reach the professionals interested in the different type of skills audits and get them acquainted with the ASSESS PLUS outputs and achievements. These efforts successfully supported the overcoming of the current covid-19 restrictions. Meaningful events have been identified during the last months, the most significant among them:

- the Annual National Euroguidance Bulgaria Training for Career Practitioners in November, 2020 with around 90 participants
- the online training for career and assessment practitioners under the Global Career Development Facilitator certification program in Bulgaria with 10 participants
- the webinar for career practitioners organized by the Association of Career Counsellors in North Macedonia with around 30 participants.
